

# Sport Court Access to Water and Bathrooms

## Building 60/Cloisters

To access the bathroom and water fountains, descend the (steep) staircase and enter. There's various openings/doorways because of construction. Simply follow the hallway to the right all the way down until you get to the restrooms and water fountain.

There's also a set of double doors at the end (star) that are locked occasionally that will lead you to a "rec room" and beside it to the left are the restrooms and water fountain.
